

# Material Supply Sources

## Pencil 1 \ \ \ \ \ Class 1

*First rule in spending your money wisely: Buy nothing other than Instructor approved material in order to excel in these lessons.*

Locally [Decatur, Huntsville] we have Hobby Lobby being the best of the lot with acceptable products. Buy no substandard material as this will tend to produce lack luster renderings requiring much more work with little learned.

At times we need to reach out to find the quality needed for our final plate material, please follow your Instructor's suggestions. This will save you the time and energy of searching for the right products.

Listed below is information guiding you to the new trend in art supply sourcing but caution is your responsibility when purchasing. Professional grade goods are available but must be sought after with a focused effort.

Sales and cheap stuff will get in your way at every address; buy name brand and what is suggested for class. Of the list below we have found Dick Blick to be the all-round best of the bunch on line. Ask for a catalog!

### **On Line Stores:**

**Dick Blick**  
1-800-828-4548

[www.dickblick.com](http://www.dickblick.com)

**Hobby Lobby**  
**Decatur Alabama**

A material list will be provided before each lesson you sign up for. This will help you in many ways most in time and money. Search out your needed items and build an information file leading to your own store by following your material list suggestions. Watch for sales which help all of us replacing the materials we use.
