

Cultivate: *On The Road*

Bringing STEM to your campus!

Hands-on, plant science and literacy-based **lessons** designed to **inspire** your students presented to your team **on your campus!**

We're excited to bring *Cultivate* **directly to school administrators and teachers at their campuses!** This program is available for professional development days or during faculty meetings—and best of all, it's completely **FREE** to book!

Our *on-the-road* program offers hands-on STEM activities that focus on plant science and literacy, along with a curriculum that teachers can easily implement in their classrooms. Plus, we'll lead a walking tour of the natural environment around your campus to inspire even more learning.

Contact cultivate@hsvbg.org or 256-830-4447 ext. 270 to schedule your preferred Cultivate on the Road date at your campus today!

Visit the [Cultivate](#) webpage to receive more information about this mission-driven initiative led by three Gardens across our state and view upcoming sessions at Huntsville Botanical Garden.

Funding for this program is provided by the State of Alabama Legislature with additional support from The Daniel Foundation of Alabama, Toyota Motor Manufacturing of Alabama, Rotary of Greater Huntsville, Mazda Toyota Manufacturing, and other philanthropic assistance.
