Annuals

Scientific Name	Cultivar	Common Name	Trade Name/ Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Angelonia angustifolia</i>	Cascade Deep Purple'	Summer Snapdragon	Carita®	15"	24"	Full Sun	Medium	May-Oct	P		This carefree, continuous bloomer is well-suited to landscapes, gardens and mixed containers, and performs well under a wide range of conditions. The perfect choice for water-wise, heat-loving plants. Perfect for hanging baskets.
<i>Angelonia angustifolia</i>	Mix	Summer Snapdragon	Serena®	14"	18"	Full Sun	Medium	May-Oct	D, R, P		This carefree, continuous bloomer is well-suited to landscapes, gardens and mixed containers, and performs well under a wide range of conditions. The perfect choice for water-wise, heat-loving plants.
<i>Caladium hybrid</i>	Berries and Burgundy'	Caladium		16"	12"	Shade-Part Sun	Medium	n/a			Classic shade annual! A caladium offers a distinctive color with leaves that are bronze with bright pink veins. They thrive in warm temperatures and shady conditions.
<i>Caladium hortulanum</i>	Burning Heart'	Caladium	Heart to Heart®	24"	24"	Part Sun-Full Sun	Medium	n/a			Caladium Burning Heart represents a new color for caladiums. 2016 "Plant of Distinction" by the University of Georgia. The more sun it receives the bolder the bronze color. Does great in sun or shade
<i>Caladium hortulanum</i>	Snow Drift'	Caladium	Heart to Heart®	20"	14"	Shade-Part Sun	Medium	n/a			Classic shade annual! Add a pop of white color to your landscape with these caladiums. 'Snow Drift' caladiums are perfect for containers or in the landscape.
<i>Catharanthus roseus</i>	Raspberry'	Vinca	Tattoo™	14"	8"	Full Sun	Low-Medium	May-Oct	P		Tropical colored petals are swirled with soft brush strokes of black. Dark eye becomes more defined in warm temperatures. A drought tolerant annual and has outstanding performance in tough conditions.
<i>Coleus scutellarioides</i>	Dipt in Wine'	Coleus	ColorBlaze®	36"	24"	Full Sun-Part Sun	Medium	n/a	P		A coleus for the full sun! The color is actually brighter in full sun locations. Smooth, shiny, rounded leaves are crimson with a lime-green edge. This coleus rarely blooms.

Scientific Name	Cultivar	Common Name	Trade Name/ Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Coleus scutellarioides</i>	Fishnet Stockings'	Coleus		36"	16"	Shade-Part Sun	Medium	n/a	D,B		A coleus that tolerates more sun than others! The color is actually brighter in full sun locations. Good with at least a half day of sun. Very dramatic pattern and a fun name.
<i>Euphorbia hypericifolia</i>	Hip Hop'	Baby's Breath Euphorbia		16"	16"	Full Sun	Low-Medium	May-Oct	D, P		Produces masses of pure white bracts above finely textured, apple green foliage. Looks like little clouds. Loves heat and does well with little water. Combines well with other annuals for combinations.
<i>Gomphrena pulchella</i>	Pink'	Gomphrena	Truffula®	24"	24"	Full Sun	Low-Medium	May-Oct	P		Produces an abundance of hot-pink flowers. It performs very well in hot, humid climates where it blooms all season long. It is an ideal cut-flower with long vase life.
<i>Helianthus hybrid</i>	Yellow'	Sunflower	Suncredible®	36"	24"	Full Sun	Medium	May-Oct	P,B		An everblooming sunflower is built on a well branched bush-like habit that is perfect for the back of the bed or container. They make great cut flowers.
<i>Ipomoea batatas</i>	Makatea'	Sweet Potato Vine	Treasure Island™	14"	24"	Full Sun	Medium	n/a			Makatea' combines flavor and beauty. An edible ornamental! Has chartreuse heart-shaped leaves and at the end of the season, has edible white-flesh tubers.
<i>Ipomoea batatas</i>	Midnight Lace'	Sweet Potato Vine	Illusion®	10"	36"	Full Sun-Part Sun	Medium	n/a			A great foliage component plant in combinations, excellent heat tolerance and good vigor. Also good as an annual ground cover. Does not make edible tubers.
<i>Lantana camara</i>	Samantha'	Lantana		16"	36"	Full Sun	Low-Medium	May-Oct	P,B		Bright yellow flower clusters bloom throughout the summer and attract wildlife like birds, butterflies and hummingbirds. Thrives in the heat and humidity. One of the few variegated lantanas.

Scientific Name	Cultivar	Common Name	Trade Name/ Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Petunia hybrid</i>	Night Sky'	Petunia	Headliner™	12"	30"	Full Sun	Medium	May-Oct	P		Night Sky' takes the simple petunia to a new level. Early blooming, with a dramatic coloration. These petunias are perfect for hanging baskets and containers and work well in a border.
<i>Petunia hybrid</i>	Bubblegum'	Petunia	Supertunia Vista®	24"	30"	Full Sun	Medium	May-Oct	P,B		These are vigorous petunias with mounding habits that are perfect for baskets and containers. Heavy blooming with one of the best heat tolerances in petunias!
<i>Petunia hybrid</i>	Black Magic'	Petunia	Slingshot™	16"	20"	Full Sun	Medium	May-Oct	P		One of the few black bedding plants! These are sure to add some drama to a container or garden bed controlled, mounded, trailing habit.
<i>Petunia hybrid</i>	Pink'	Petunia		12"	36"	Full Sun	Medium	May-Oct	P,B		Fast-growing plants bloom freely all season in landscapes and containers without cutting back, and tolerates cooler conditions very well.
<i>Petunia hybrid</i>	Ray Black'	Petunia		10"	14"	Full Sun	Medium	May-Oct	P,B		One of the few black bedding plants! These are sure to add some drama to a container or garden bed controlled, mounded, trailing habit.
<i>Salvia hybrid</i>	Wendy's Wish'	Salvia		36"	36"	Full Sun-Part Sun	Medium	May-Oct	P,B		Salvia 'Wendy's Wish' appeared as a spontaneous garden hybrid beneath a plant of Salvia mexicana 'Lolly' in the Victoria, Australia garden of Salvia enthusiast Wendy Smith. Does wonderful in the landscape and is a hummingbird magnet.
<i>Strobilanthes dyerianus</i>		Persian Shield		36"	24"	Part Sun	Medium-High	n/a			Iridescent, colorful leaves of purple, green and silver all season; heat tolerant. Thrives in shade conditions.

Scientific Name	Cultivar	Common Name	Trade Name/ Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Torenia hybrid</i>	Pink <sup>1</sup>	Wishbone Flower	Catalina <sup>®</sup>	12"	12"	Shade-Part Sun	Medium	May-Oct	P		These are heat and shade tolerant. These flowering shade plants deserve to be used more often in shaded locations, and also thrive in sunny spots if given adequate water.
<i>Verben</i> <i>a bonariensis</i>		Brazilian Verbena		36"	24"	Full Sun	Medium	Jun-Sept	P,B		Clusters of pinkish purple blooms on wiry, self-supporting stems. The dark green leaves are very narrow and very sparse, so the plants are remarkably light and airy. Attracts large amounts of butterflies.

Herbs &  
Veggies

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Abelmoschus esculentus</i>	Clemson Spineless'	Okra	36"-60"	24"	Full Sun	Medium	Jul-Oct	P		Light green pods consist of 5-8 points. The standard variety in the South. Cream-colored flowers are also edible. An attractive ornamental; good in containers. 55-70 Days
<i>Capsicum annuum</i>	Candy Cane'	Sweet Snack Pepper	20"	24"	Full Sun	Medium	Jun-Aug	P,D		Uniquely striped pepper that grows to 3-5" long. Starts with green with white stripes before ripening to full red color . With gorgeous coloration and beautiful variegated leaves, this pepper works well for both ornamental and culinary uses. 40-60 days
<i>Capsicum annuum</i>		Sweet Banana Pepper	36"	24"	Full Sun	Medium	Jun-Oct	P,D		Sweet pepper - One of the most dependable heirloom peppers, this pepper variety has impressive flavors and low-level heat perfect for a wide range of culinary uses. Usually high yields. Ripen from green to yellow with excellent flavor. 60-80 Days
<i>Capsicum annuum</i>	Sweet Sunrise'	Sweet Bell Pepper	36"	24"	Full Sun	Medium	May-Sep	P,D		Sweet pepper - Blocky, dark green bell ripens to yellow/orange. The flavor is both fruity and sweet. Yields well and fruits ripen early, even in the North. USDA Certified Organic. 65-90 Days
<i>Capsicum annuum</i>		Anaheim Pepper	24"	12"	Full Sun	Medium	Jun-Oct	P		Pepper with semi-thick skin and pale green flesh that is crisp, aqueous, and faintly striated, with a slightly fruity, peppery and moderately spicy flavor.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Capsicum annuum</i>	California Wonder'	Sweet Bell Pepper	24"	24"	Full Sun	Medium	Jun-Sep	P,D		Introduced in 1928, 'California Wonder' is a popular open-pollinated heirloom. Easy to grow, and it is resistant to Tobacco Mosaic Virus. Great for cooking.65-90 days.
<i>Capsicum annuum</i>	Pepper Joe's Serrano'	Serrano Pepper	24"-36"	18"	Full Sun	Medium	Jun-Sep	P,D		A medium hot pepper, these plants are very productive. They will ripen from green to red, but are commonly harvested when green in color. 70-79 Days
<i>Coriandrum sativum</i>	Cruiser'	Cilantro	12"-18"	12"	Full Sun-Part Sun	Medium	Apr-May, Sep-Oct	P		This cilantro has an upright plant habit and excellent bolt resistance. Large leaves and sturdy stems make it an ideal bunching variety. 50-55 Days
<i>Cucumis sativus</i>	Quick Snack'	Snacking Cucumber	24"	20"	Full Sun	Medium	June-Sept	P		Compact vine makes it perfect for growing in containers. Tidy plants are early to produce copious amounts of tasty 2-4" cocktail cucumbers. Plants benefit from support, like from a tomato cage. Delicious patio cucumber.38-45 Days
<i>Cucumis sativus</i>	Gateway'	Slicing Cucumber	8"-18"	20"	Full Sun	Medium	Jun-Sep	P		Improved downy mildew resistance. Vigorous vines provide high yields, resilience, and extended production later into the season. An excellent option for outdoor trellis production. 50-60 Days

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Cucurbita moschata</i>	Honeynut'	Butternut Squash	24"	60"	Full Sun	Medium	Jul-Oct	P		A mini butternut squash, widely regarded as one of the best-tasting squash of all time. This squash reaches just 4 to 5 inches long, making a single serving size and quicker to roast whole. It has a sugar-sweet taste and deep orange flesh. 100-110Days
<i>Cucurbita pepo</i>	Tempest'	Crookneck Squash	24"-36"	36"	Full Sun	Medium	Jun-Aug	P		Features an open habit and soft spines for easy harvest. Leaves may have yellow color, which sometimes resembles virus symptoms. This is normal. Excellent for cooking. USDA Certified Organic. 50-60 Days
<i>Cucurbita pepo</i>	Angel Hair'	Spaghetti Squash	24"	36"-48"	Full Sun	Medium	Jul-Oct	P		A small spaghetti squash variety, perfect for single servings. Highly uniform, egg-shaped, with a slightly darker shell than other varieties. Sweet, nutty flavor. High-yielding plants. Long vines. 80-90 Days
<i>Ocimum basilicum</i>	Sweet Thai'	Thai Basil	16"-20"	24"	Full Sun	Medium	Jul-Oct	P,D		Leaves have a spicy, anise/clove flavor. Attractive purple stems and blooms. Called "Horapha" in its mother country, "Hun Que" in Vietnam. USDA Certified Organic.
<i>Solanum lycopersicum</i>	Honey Bee'	Cherry Tomato	60"	20"	Full Sun	Medium	June-Aug	P		Late producing, blight-resistant cherry tomato. An early, improved Artisan type with excellent flavor. Red- and yellow-striped fruit. Compact plant habit, high yields, and less cracking than others of its type, even when removing the calyx. Indeterminate. USDA Certified Organic. 35-50 Days.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Solanum lycopersicum</i>	Cherokee Purple'	Heirloom Tomato	36"	24"	Full Sun	Medium	June-Aug	P		Unusual variety with Exceptionally rich flavor and texture make this a favorite heirloom. Relatively short vines. Indeterminate. USDA Certified Organic. 60-75 Days
<i>Solanum lycopersicum</i>	Big Beef Plus'	Tomato	60"	24"	Full Sun	Medium	June-Aug	P		One of the best-loved beefsteaks, now with improved flavor, color, and adaptability. Sweeter than the original, with added Tomato spotted wilt virus resistance. Indeterminate. 70-75 Days
<i>Solanum lycopersicum</i>	San Marzano II'	Paste Tomato	30"	24"	Full Sun	Medium	Jul-Oct	P		Considered one of the best paste tomatoes available. Whole 4-6 oz. tomatoes peel easily and cook down quickly. This strain originates from Parma, Italy, where it was developed for the 1950's canning industry. Indeterminate. USDA Certified Organic. 75-85 Days
<i>Solanum lycopersicum</i>	Hungarian Heart'	Heirloom Tomato	60-70"	36"	Full Sun	Medium	May-Aug	P		Brought to the US in 1901 by a winemaker from Hungary. The potato-leaf plants produce huge, pink oxheart fruits that weigh upwards of one pound, have very few seeds, and show almost no cracking. Good for fresh eating, canning, and making roasted tomato sauce. 80-85 Days
<i>Solanum lycopersicum</i>	Wapsipinicon Peach'	Heirloom Cherry Tomato	48"	24"	Full Sun	Medium	May-Aug	P		Heavy producer of 2" round fuzzy yellow fruits. Sweet, juicy, well-balanced flavor. Winner of Seed Savers Exchange's 2006 Tomato Tasting. Rot resistant. 75-85 Days

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Solanum melongena</i>	Gaudi'	Eggplant	48'	24"	Full Sun	Medium	Jun-Oct	P		Prolific yielder of glossy fruits with attractive teardrop shape. Spineless, widely adapted, and stress tolerant. Higher yields on stronger, more upright plants that are less prone to lodging. USDA Certified Organic. 65-80 Days.

Houseplants

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Aglaonema hybrid</i>	Silver Bay'	Chinese Evergreen	12-36"	12-36"	Part Sun	Medium	Apr-June			Tropical, slow growing plant with thick, leathery leaves.
<i>Aloe vera</i>		Aloe	12-24"	24-36"	Full Sun	Low-Medium	n/a			Aloe Vera is an herb with succulent leaves arranged in a rosette. the leaves have short, sharp spines to protect it from foragers.
<i>Asparagus aethiopicus</i>		Foxtail Fern	2-3'	3-4'	Part Sun	Medium	May, June			These fern-like plants have arching plumes of tightly packed, needle-like leaves that look soft and delicate. A laidback plant with easy care requirements.
Cactaceae		Cactus	8-18"	8-18"	Full Sun	Low	n/a			Cactus' have thick green stem and spiny thorns and require very little water. They can bloom throughout the year.
<i>Calathea lietzei</i>	Fusion White'	Calathea	12-18"	12-18"	Part Sun	Medium	June-Aug			White and green variegated leaves make this Calathea a showy choice for a houseplant.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Calathea zebrina</i>		Zebra Plant	2-3'	2-3'	Part Sun	Medium	July-Oct			Compact plant with dark green leaves and white veins which resemble zebra stripes.
<i>Codiaeum variegatum</i>	Picasso's Paintbrush'	Croton	5-6'	4-5'	Full Sun, Part Sun	Medium	April, May			Distinctive, narrow leaves that can be red, orange, yellow, green and even purple, giving it a paintbrush appearance.
<i>Cordyline fruticosa</i>	Black Magic'	Cordyline	3-6'	2-4'	Part Sun	Medium	May, June			This is a tropical plant with dark, glossy leaves.
<i>Davallia fejeensis</i>	Rabbit Foot Fern		1-3'	1-4'	Part Sun	Medium	n/a	D,R		This fern is known for its surface rhizomes that have a uniquely fuzzy appearance.
<i>Dracaena fragrans</i>	Tornado'	Dracaena	3-4'	2-3'	Part Sun	Medium	May, June			A unique cultivar of Dracaena fragrans known for its distinctively curled, spiraling leaves that resemble a twisting tornado.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
Droseraceae and Lentibulariaceae		Carnivorous Plants	1-3"	1-3"	Part Sun	High	April-May	assorted		These plants have evolved to capture and digest insects for nutrients.
<i>Epipremnum aureum</i>	Snow Queen'	Pothos	6-10'	18"	Part Sun	Medium	n/a			Pothos 'Snow Queen' is a fast growing, easy care vining indoor plant with stunning marble-patterned variegated leaves.
<i>Ficus alii</i> ( <i>F. maclellandii</i> )		Banana Leaf Fig	6-10'	4-6'	Part Sun	Medium	Apr, May			Called the Banana leaf fig for the long and slender shape of its leaves. It is also less prone to dropping its leaves due to imperfect environmental conditions than other figs.
<i>Homalomena wallisii</i>	Camouflage'	Homalomena	12-24"	12-18"	Part Sun	Medium	July			'Camouflage' has beautifully variegated leaves of light and dark green in unusual, mottled patterns. This is an easy-to-grow houseplant.
<i>Hoya spp.</i>		Wax Plant	3-10'	4-6'	Part Sun	Medium	April-Oct			Hoyas are widely cultivated for their aromatic blooms and unique foliage. They are native to tropical and subtropical areas all around the world.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Monstera deliciosa</i>	Thai Constellation'	Monstera	6-15'	4-5'	Part Sun	Medium	August-Sept			This isn't your average Monstera. Each leaf unfurls with stunning marbled patterns of creamy white against lush, deep green.
<i>Oncidium</i> spp.		Dancing-Lady Orchid	12-30"	24-36"	Full Shade	Medium-High	Aug-Sept			Produces spikes that burst with huge amounts of small, yellow flowers with orange accents.
<i>Peperomia</i> spp.&hybrids		Peperomia	6-12"	6-12"	Part Sun	Medium	April, May	assorted		This assortment contains a variety of growth habits and leaf forms. From trailing varieties to compact varieties, with deep green to red to variegated leaves.
<i>Phaius tankervilleae</i>		Nun's Orchid	24-36"	12-24"	Part Sun	Low-Medium	Jan-April			Considered easier to care for than other orchid varieties. Blooms open for up to 6 weeks and have a pleasant aroma.
<i>Philodendron tatei</i>	Congo Rojo'	Philodendron	4'	4'	Part Sun	Medium	May, June			A non-vining Philodendron. The broad, thick dark green leaves are elevated on sturdy reddish stems that shine even from a distance. New, unfolding leaves are deep burgundy with red-purple stems.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Xanthosoma sagittifolium</i> 'Variegata'	Mickey Mouse'	Alocasia	5-6'	4-5'	Part Sun	Medium	n/a			This Alocasia has leaves resembling Mickey Mouse's ears. Along with the unique leaf shape, this variety also has beautiful variegation.
<i>Zamioculcas zamiifolia</i>	Black Raven'	ZZ plant	3'	3'	Part Sun	Medium	April-June			New growth starts out lime green and matures into a deep purple-black.

Perennials

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Photo	Description
<i>Achillea millefolium</i>	Firefly Peach Sky'	Yarrow	36"	32"	Full Sun	Low-Medium	May-Aug	NA, Eur, Asia (AL)	D,R,P			AL native. Light peachy orange flowers age to yellow. Mature and new flowers create a blend of colors, much like you would find on a peach fruit. Tall, upright habit.
<i>Achillea millefolium</i>	Sassy Summer Lemon'	Yarrow	32"	42"	Full Sun	Low-Medium	Jun-Aug	NA, Eur, Asia (AL)	D,R,P,B			AL native. Huge flower heads of bright, sunny yellow blooms with an early bloom time. Tall Stalks.
<i>Agastache hybrid</i>	Queen Nectarine'	Anise Hyssop	36"	36"	Full Sun	Low-Medium	Jun-Oct	NA	D,P,B			US native. Soft peach flowers are held on the mauve calyxes of 'Queen Nectarine'. Compared with 'Royal Raspberry', this is noticeably taller. Best performance comes in full sun with well drained soils.
<i>Agastache hybrid</i>	Royal Raspberry'	Anise Hyssop	32"	32"	Full Sun	Low-Medium	Jun-Oct	NA	D,P,B			US native. 'Royal Raspberry' has rosy purple flowers with burgundy calyxes. New foliage emerges with a burgundy cast in spring. Best performance comes in full sun with well drained soils.
<i>Ajuga hybrid</i>	Fancy Finch'	Carpet Bugle	4-6"	9-18"	Part Sun, Full Shade	Medium	March-June	NN	P,D,R			Versatile foliage that give more orange colors in the sun, and more yellows and lime greens in the shade. Gives blue blooms in the spring.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Ajuga hybrid</i>	Noble Nightingale'	Carpet Bugle	4-6"	12-18"	Part Sun, Full Shade	Medium	March-May	NN	P,D		This evergreen ground cover boasts dark purple, almost black foliage.
<i>Ajuga reptans</i>	Burgundy Glow'	Bugleweed	6"	10"	Shade-Part Sun	Medium	May-Jun	Eur, NAfrica, SWAisa	D,P,B		Fantastic tricolored foliage in shades of creamy-white, rose-burgundy, and dark green make this ajuga different than all the others.
<i>Allium schoenoprasum</i>	Rising Star'	Chives	11"	11"	Full Sun	Medium	Mar-Jun	Europe	P,B		Extra dwarf pink chives reaching only 10-12" tall and wide, bloom in May. Fine grey, green, grassy foliage looks nice all season long.
<i>Allium x hybrid</i>	Summer Beauty'	Ornamental Onion	22"	22"	Full Sun	Medium	Jun-Aug	Europe	P,B		A perennnial that just keeps on blooming. Attracts many pollinators. Low maintainance and thrives with minimal care.
<i>Amsonia hubrichtii</i>		Hubricht's Bluestar	48"	24"	Full Sun	Low-Medium	Apr-Jun	NA (AL)	B,P		US native. Bluestar is an erect, clump-forming perennial which provides 3 seasons of interest with its starry blue flowers in spring, green summer foliage, and charming fall color.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Amsonia tabernaemontana</i>		Eastern Bluestar	2-3'	2-3'	Part Sun, Full Sun	Medium	April, May, June	Eastern NA	P,D,R		US native. Forms bright, star shaped flower clusters that are a pale blue. Foliage turns a striking yellow in the fall.
<i>Andropogon gerardii</i>	'Blackhawks'	Big Bluestem	50"	24"	Full Sun	Low-Medium	Jul-Aug	NA(AL)	D,B		AL native. 'Blackhawks' is a stunning cultivar of a native prairie grass. Foliage emerges dark green, shifting to a deep purple that darkens as summer turns to fall, culminating in purple blooms with tiny white seeds.
<i>Anemone tomentosa</i>	'Robustissima'	Japanese Anemone	36"	18"	Part Sun	Medium	Aug-Sep	Asia	D,R,P,B		Hardy and vigorous, the single pink flowers bloom about one month earlier than those on other fall blooming Anemone
<i>Aquilegia caerulea</i>	'Deep Blue & White'	Columbine	24"	24"	Part Sun-Full Sun	Medium	May-Jun	NA	R,P,B		US native. This has flowers with a mixture of dark indigo blue and white shades. Very lovely when allowed to naturalize in shady, woodland borders. They also have excellent potential as cut flowers.
<i>Aquilegia 'Kirigami Rose &amp; Pink'</i>	'Rose & Pink'	Columbine	24"	24"	Part Sun-Full Sun	Medium	May-Jun	NA	R,P,B		US native. Rose & Pink has flowers with a mix of dark rose and lighter pink shades. Very lovely when allowed to naturalize in shady, woodland borders. They also have excellent potential as cut flowers.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Aralia cordata</i>	Sun King'	Gold Japanese Spikenard	36"	36"	Part Sun	Medium	Jul-Aug	EAsia	D,R		An excellent complement to hostas and woodland perennials, emerges mid-spring with bright gold leaves held on nicely contrasting reddish brown stems. Very tropical looking for coldy hardy perennial.
<i>Artemisia x hybrid</i>	Garden Ghost'	Artemesia	22"	24"	Full Sun	Medium-Low	n/a	NA	D,R		US native. Hybrid variety with upright, silver foliage. Perfect for drought tolerant landscapes.
<i>Asclepias incarnata</i>	Cinderella'	Swamp Milkweed	60"	36"	Full Sun	Medium	Jul-Oct	NA	D,P,B		US native. A beautiful, hassle-free perennial, offering three months of vanilla scented, rose pink flowers in large, compact clusters from midsummer to early fall. Does excellent in poorly drained areas.
<i>Asclepias perennis</i>		Aquatic milkweed	1-3'	1-2'	Full Sun, Part Shade	Medium-High	May-Sep	Eastern NA	P,D,R		US native. A perennial, reseeding milkweed that handles wet areas well. Attracts monarch and queen butterflies
<i>Aspidistra elatior</i>		Cast Iron Plant	30"	28"	Shade-Part Sun	Medium	n/a	Asia			One of the best plants for dry shade. Thrives in extremely low light and low water conditions. A great choice for those places where you cannot grow anything. Also does well as a houseplant.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Photo	Description
<i>Aspidistra sichuanensis</i>	Spek-tacular'	Cast Iron Plant	32"	18"	Shade-Part Sun	Medium	n/a	NN				A stunning cast iron plant selection purchased at a flower market in Sichuan, China by Linda Guy, and first introduced commercially in 2012 by Plant Delights. One of the best plants for dry shade.
<i>Astilbe chinensis</i>	Pumila'	Dwarf Chinese Astilbe	10"	16"	Shade-Part Sun	Medium	Aug-Oct	EAsia	D,R,P			This popular dwarf groundcover type of Astilbe forms a low carpet of mid-green leaves topped with fuzzy, lilac pink, stiffly upright flower plumes. One of the best varieties for the south with great heat tolerance.
<i>Astilbe Hybrid</i>		Chocolate Shogun	18-24"	18-24"	Part Sun, Full Shade	Medium	May, June	NN	P,D,R			More drought tolerant than other Astilbe. Grows dark, chocolatey-bronze foliage and pink blush flowers.
<i>Baptisia hybrid</i>	Pink Lemonade'	False Indigo	48"	48"	Part Sun-Full Sun	Low-Medium	May-Jun	NA	D,P			US native. In late spring to early summer, soft yellow flowers age to dusty raspberry purple, and both colors appear on the stem at the same time. Charcoal stems really make the colors pop.
<i>Baptisia hybrid</i>	Plum Rosy'	False Indigo	48"	48"	Part Sun-Full Sun	Low-Medium	May-Jun	NA	D,P			US native. A beautifully elegant bicolor Baptisia that bursts onto the scene in late spring to early summer. Newest flowers open mauve pink and lighten to near white with age.

<i>Bergenia hybrid</i>	Spring Fling'	Bergenia	12-24"	18-24"	Full Sun, Part Sun	Medium	March, April	NN	P,D,R		Known for its showy display of dense, pink blooms in early spring.
<i>Bergenia hybrid</i>	Dragonfly Sakura'	Bergenia	10"	12"	Full Sun, Part Sun	Low	March, April	NN	P,D,R		Gives brilliant pink flowers reminiscent of cherry blossoms.
<i>Brunnera macrophylla</i>	Emerald Mist'	Heartleaf Brunnera	15"	15"	Shade-Part Sun	Medium	Apr-May	EEur, NWAsia	D,P		Produces tiny, baby blue, forget-me-not type flowers. Brunneras are classic perennials that are treasured for their shade tolerance and lovely blooms. They make a fantastic shade groundcover.
<i>Carex elata</i>	Bolwes Golden'	Sedge	1-2'	2-3'	Full Sun, Part Sun	Medium-High	April-May	NN	D, R		Produces bright gold to chartreuse foliage. Perfect for brightening partially shaded areas.
<i>Carex oshimensis</i>	Feather Falls'	Feather Falls Sedge	36"	36"	Part Sun-Full Sun	Medium	n/a	NN			Can be used in mass, but also creates a stunning solitary specimen. Larger than other Carex and quite sun tolerant. Does wonderful in containers.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Caryopteris x clandonensis</i>	Longwood Blue'	Caryopteris Bluebeard	36"	38"	Full Sun	Medium	Aug-Oct	NA	P,B		Fragrant, violet-blue flowers attract butterflies from late summer to fall, when few other shrubs are in color. Wonderful for attracting pollinators.
<i>Chelone sp.</i>	Hot Lips'	Turtlehead	36"	18"	Full Sun/Part Sun	Medium-High	Aug-Oct	NA(AL)	B		AL native. Darker foliage distinguishes this turtlehead from the straight species. Deep pink flowers look like turtle heads.
<i>Chrysanthemum x hybrid</i>	Brandywine Sunset;'	Chrysanthemum	33"	33"	Full Sun	Medium	Sep-Oct	Asia	P,B		Soft buttery orange single daisy flowers age to creamy yellow. Perfect for adding late season color to a landscape.
<i>Clivia miniata</i>		Clivia Lily	18-24"	24-36"	Part Sun	Medium	December-April	NN	P,D,R		Produces clusters of orange flowers. If kept as a house plant, will bloom from early winter until spring.
<i>Coreopsis hybrid</i>	Baluptowed'	Yellow & Red Tickseed	14"	14"	Full Sun	Medium	May-Aug	NA	D,P		US native. Sunny yellow flowers with dark red centers. Coreopsis is easy to grow, making it a good choice for beginners. One plant will provide you with long-lasting cut flower bouquets all summer long.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Dianthus hybrid</i>	Paint the Town Fancy'	Pinks	10"	18"	Full Sun	Low-Medium	Jun-Oct	Eur, Asia	P		Produces single, rosy fuchsia flowers with a red eye and serrated petals. Flowers completely cover the plant when it's in peak. Its bluish foliage sets it apart from other Dianthus of its type.
<i>Dicentra spectabilis</i>		Old-Fashioned Bleeding	36"	36"	Shade-Part Sun	Medium	May	EAsia	D,P		One of the oldest but still irreplaceable perennials in cultivation. Chains of puffy heart-shaped flowers with rose-pink petals and white tips dangle beneath the arching, leafless stems.
<i>Dicentra spectabilis</i>	Alba'	Old Fashioned Bleeding	30"	36"	Shade-Part Sun	Medium	May	EAsia	D,P		Alba' forms large, bushy clumps of powdery-light green foliage comprised of cut or lobed leaves on fleshy stems. In late spring, chains of puffy, white, heart-shaped flowers dangle beneath the arching, leafless stems.
<i>Dryopteris australis</i>		Dixie Woodfern	36"	24"	Part Sun	Medium	n/a	NA(AL)	NA		AL native. A very upright and slow spreading fern. Tolerant of dry sites and deer.
<i>Dryopteris pulcherrima</i>		Beautiful Woodfern	18"	24"	S-Part Sun	Medium	n/a	Asia	NA		Flourishes in hot southern summers. Can be evergreen and does best in soil that has lots of organic matter.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Echinacea hybrid</i>	Cheyenne Spirit'	Coneflower	30"	28"	Full Sun-Part Sun	Low-Medium	Apr-Oct	NA	D,P,B		US native. A dynamic mixed color strain of Echinaceas, the height of each color varies slightly, they are all very well-branched, bushy plants that fill out the pot nicely and have high color impact in the landscape.
<i>Echinacea purpurea</i>	PowWow White'	Coneflower	24"	16"	Part Sun-Full Sun	Low-Medium	May-Aug	NA	D,P,B		US native. Pure white flowers with a golden yellow cone measured 3-4" across with wide, overlapping, reflexed petals. From early through late summer, the flowers are produced prolifically on stiff, well-branched stems.
<i>Eryngium planum</i>	Blue Glitter'	Sea Holly	8"	12"	Full Sun	Low-Medium	Jul	Eur, Asia	P		Adored by florists and gardeners alike for its unique and long lasting, blue, spiny flowers, and will grow in that hot, sunbaked spot in your landscape.
<i>Eupatorium coelestinum</i>		Mistflower	36"	24"	Full Sun-Part Sun	Medium-High	Sep-Oct	NA	D,P,B		US native. Great for late season interest in the garden, this plant has bright green foliage contrasting with red stems. Does wonderful in wet areas.
<i>Gaillardia aristata</i>	Arizona Red Shades'	Blanket Flower	12"	12"	Full Sun	Low-Medium	May-Oct	NA	D,P,B		US native. 'Arizona Red Shades' produces masses of large, crimson red blossoms from early summer all the way into early fall, even under hot and dry conditions.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Gaillardia aristata</i>	Arizona Sun'	Blanket Flower	10"	10"	Full Sun	Low-Medium	May-Oct	NA	D,P,B		US native. This compact and uniform perennial produces masses of large, 3" diameter, fiery orange-red blooms tipped by a ring of rich flame yellow. A 2005 All-American Selection.
<i>Gaura lindheimeri</i>	Whirling Butterflies'	Gaura	36"	60"	Full Sun	Medium-Low	May-Jul	NA(AL)	P,B		AL native. Tough yet delicate, it feature tall, airy-looking flowers dancing and waving on long, thin stems.
<i>Geum x hybrid</i>	Alabama Slammer'	Geum	12"	11"	Full Sun	Medium	May-Jun	NA	D,R,P,B		Hairy mounds of foliage with burgundy stems that bloom with multi colored deep orange flowers edged and highlighted with red. Thrives in moist condions
<i>Helenium autumnale</i>	Mariachi Fuego'	Sneezeweed	18"	20"	Full Sun	Medium	May-Jun	NA (AL)	P,B		AL native. 'Loads of flowers with rings of yellow around the small button cone and the petal tips. Excellent for attracting pollinators.
<i>Hemerocallis</i>	Awesome Blossom'	Daylily	12-36"		Full Sun	Medium	Summer	NN	P,B		This large daylily has 5" blooms that have antique rose or apricot petals, a plum eye zone, and a yellow to orange throat.

<i>Hosta hybrid</i>	Rainbow's End'	Hosta	11"	21"	Shade-Part Sun	Medium	Jul-Aug	EAsia	B		This unique hosta exhibits incredibly variegated, shiny foliage. It forms a medium sized mound of attractive foliage in the landscape.
<i>Hosta hybrid</i>	Patriot'	Hosta	24"	48"	Shade	Medium	April-Sept	NN			One of the most popular variegated hostas ever introduced. It is a clump-forming perennial forming a mound of large, satiny, dark green leaves with irregular ivory margins.
<i>Hosta hybrid</i>	Party Streamers'	Hosta	12"	31"	Shade-Part Sun	Medium	Jun-Aug	EAsia	B		Long, narrow, wiggly yellow leaves form a mounding habit. Its rapid growth rate means you won't have to wait long to see it come to maturity. Deep purple flowers contrast beautifully with the foliage.
<i>Hosta sieboldiana</i>	Elegans'	Hosta	20"	40"	Shade-Part Sun	Medium	Jul-Aug	EAsia	B		Huge blue-gray, rounded leaves that become heavily textured and corrugated as they mature; slug resistant. Blue leaf color is best achieved in light sun. White flowers bloom in clusters on 34" scapes in midsummer.
<i>Iris cristata</i>		Dwarf Crested Iris	6-12"		Part Sun	Medium	Spring	US (AL)	P,D		AL native. Woodland plant that can fill in a spot beautifully. Purple blue flowers are attractive to bees and hummingbirds.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Iris pseudata</i>	Yarai'	Pseudata Iris	30"	48"	Part Sun-Full Sun	Medium	May	NN	D,R,P,B		Early Bloomer. This tall plant will bring height to your garden with a unique peach blend flowers that have deep purple veining. These are a cross between Iris pseudocorus and Iris ensata.
<i>Iris pumila</i>	Prolific Purple'	Dwarf Iris	16"	22"	Full Sun	Medium-Low	March -June	NN	D,B		These fragrant bloom consist of rich violet petals with darker veining and deep purple falls with a hint of reddish purple in the center. Perfect for rock gardens.
<i>Iris sibirica</i>	Butter & Sugar'	Siberian Iris	26-28"	18-24"	Full Sun	Medium-High	May, June	NN	P,D,R		This Iris has two toned blooms of buttery yellow and sugar white petals.
<i>Kniphofia hybrid</i>	High Roller'	Red Hot Poker	48"	28"	Full Sun	Low-Medium	Jun-Sep	Africa	D,R,P,B		Orange flowers open creamy white on perfectly formed spikes. The beautiful bicolor flowers are produced above a large clump of foliage. Long bloomer, excellent for hummingbirds.
<i>Lavandula x intermedia</i>	Niko'	English lavender	30"	48"	Full Sun	Low-Medium	Jul-Sep	Eur, Asia	D,R,P,B		This lavender tolerates the extremes of both cold and heat without dying back, is resistant to common root and foliar diseases, and grows superbly in production and landscapes.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Leucanthemum superbum</i>	Banana Cream II'	Shasta Daisy	24"	22"	Full Sun	Low-Medium	May-Oct	Eur, Asia	P,B		Flower buds are lemon yellow and eventually brighten to creamy white. They are an all-time favorite for the perennial border.
<i>Liatris spicata</i>	Floristan White'	Gayfeather, Blazing Star	48"	20"	Full Sun	Medium	Jun-Aug	NA (AL)	D,P		AL native. Multiple wands of creamy white flowers open from top to bottom beginning in early summer. It is a very strong vertical accent for the garden. Also a staple item for cutting gardens.
<i>Lilium hybrid</i>	Casa Blanca'	Oriental Lily	36"	12"	Full Sun	Medium	June-July	NN	P		Classic white lily cultivar. Glossy, green foliage with extra large white fragrant flowers.
<i>Lobelia cardinalis</i>	Pink Flame'	Cardinal Flower	36"	15"	Full Sun/Part Sun	Medium-High	July-Sep	NA(AL)	D,P,B		AL native. Brilliant red blooms in late summer and continue into mid-fall. One of the best plants to attract hummingbirds.
<i>Lonicera sempervirens</i>		Coral Honeysuckle	10-20'	3-6'	Full Sun	Low-Medium	April-June	Eastern North America	P, D, R, B		Climbing vine covered in tubular, red flowers that hummingbirds love. Can remain evergreen.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Matteuccia struthiopteris</i>		Ostrich Fern	3-8'	3-5'	Part Sun, Full Shade	Medium-High	n/a	D,R	NA		US native. Cluster forming, upright fern with a vase-like shape. Naturalizes well, and the young fiddleheads are edible when cooked through.
<i>Mertensia virginica</i>		Virginia Bluebell	12"	36"	Shade	Medium-High	Apr-May	NA (AL)	P,B		AL native. A favorite for wildflower enthusiasts. This flower blooms in early Spring. It has beautiful blueish-purple blooms. Will spread slowly over time. Does best wet areas.
<i>Monarda didyma</i>	Pink Frosting'	Beebalm	16"	24"	Part Sun-Full Su	Medium	Jul-Sep	NA (AL)	D,P,B		AL native. Easy to grow and it multiplies quickly. The flowers' sweet nectar attracts scores of hummingbirds, butterflies, and bees to the garden.
<i>Monarda hybrid</i>	Red Velvet'	Beebalm	32"	36"	Part Sun-Full Sun	Medium	Jun-Aug	NA (AL)	D,P,B		AL native. Easy to grow and it multiplies quickly. The flowers' sweet nectar attracts scores of hummingbirds, butterflies, and bees to the garden.
<i>Monarda punctata</i>	BeeBop'	Spotted Beebalm	20"	18"	Part Sun-Full Sun	Low-Medium	Jun-Aug	NA (AL)	D,R,P,B		AL native. A compact, early-blooming selection of "dotted horsemint,". Tubular flowers above pink bracts. Narrow, aromatic foliage. Long bloom season. One of the best pollinator plants for home gardens.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Muhlenbergia capillaris</i>	Ruby'	Muhly Grass	36"	36"	Full Sun	Low-Medium	Jul-Oct	NA	P,B		AL Native. A clump-forming, warm season, perennial grass that is noted for its attractive summer foliage and spectacular clouds of fall flowers and winter interest.
<i>Muhlenbergia capillaris</i>	White Cloud'	White Muhly Grass	40"	30"	Part Sun-Full Sun	Low-Medium	Aug-Oct	NN			A clump-forming, warm season, perennial grass that is noted for its attractive summer foliage and spectacular clouds of fall flowers and winter interest.
<i>Nepeta hybrid</i>	Cat's Pajamas'	Catmint	14"	20"	Full Sun	Low-Medium	May-Oct	Eur, Asia, Africa	D,R,P,B		Unlike older varieties that only produce flowers at the top of the stems, this improved Catmint has blooms from the soil to the tips of the stems. Smaller and more compact than other cultivars.
<i>Nepeta hybrid</i>	Cat's Pajamas'	Catmint	12-14"	18-24"	Full Sun	Low	June-Aug	NN	P, D, R		Long blooming, indigo blue flowers from soil to tip. Provides a great splash of color in small areas.
<i>Nepeta x faassenii</i>	Junior Walker'	Catmint	14-16"	30-36"	Full Sun	Low	May-Sept	NN	P, D, R		Grows in dense clusters of aromatic, gray-green leaves. Gives off tall tips of lavender colored flowers that are long lasting.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Oenothera missouriensis</i>	Evening Sun'	Evening Primrose	4"	16"	Full Sun	Medium-Low	May-Aug	NA	D,R,B		Bright yellow flowers on silvery green foliage. Flowers open in the afternoon and bloom throughout the night.
<i>Onoclea Sensibilis</i>		Sensitive Fern	24-36"	18-24"	Part Sun, Full Shade	Medium-High	n/a	Eastern NA	D, R		US native. Grows best in moist soils where it can spread very effectively.
<i>Orezenia hybrid</i>	Fusion of Fire'	Orezenia	14"	24"	Shade-Part Sun	Medium	Apr-May	Asia	P		A intergeneric combination of <i>Mukdenia</i> and <i>Oreitrophe</i> . Large notched leaves and brilliant red fall color. Sprays of blushing pink flowers in spring. Use this durable in an area of your garden with moderate to consistent moisture.
<i>Osmunda cinnamomea</i>		Cinnamon Fern	24-36"	24-36"	Part Sun, Full Shade	Low-Medium	n/a	North and Central America	D, R		AL native. Characterized by its cinnamon-colored spore bearing structure. Grows vigorously in wet, shaded areas.
<i>Paeonia hybrid</i>	Bartzella'	Itoh, Intersectional Peon 36"	36"		Part Sun-Full Sun	Medium	May-Jun	NN	D,R,P,B		An Itoh hybrid, a cross between a herbaceous and tree peony. Offers stiffer stems with that don't bend in the rain. Established clumps can produce 80 or more flowers apiece.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Paeonia lactiflora</i>	Charles White'	Garden Peony	40"	36"	Part Sun-Full Sun	Medium	May-Jun	Asia	D,R,P,B		Heirloom introduced in 1951. Long lived, pest free, and make excellent cut flowers. It is a sun-loving perennial that needs well-drained soil to thrive.
<i>Paeonia lactiflora</i>	Sarah Bernhardt'	Garden Peony	36"	36"	Full Sun	Medium	May-Jun	Asia	D,R,P,B		Beloved with large double flowers in fresh, pastel pink. Introduced in 1906, this longtime favorite blooms dependably year after year.
<i>Pennisetum alopecuroides</i>	Foxtrot'	Fountain Grass	5'	4'	Full Sun	Medium	Jun-Oct	Asia, Aus	B		Long bottlebrush blooms that are tinged with pink or red and sway in the wind. Fast growing and does not reseed.
<i>Penstemon hybrid</i>	Midnight Masquerade'	Penstemon, Beardtongu	40"	32"	Full Sun	Medium	May-Jun	NA	P,B		US native. Produces a sturdy clump of deep burgundy purple leaves. Rich lavender purple flowers have pure white interiors and are produced on dark stems just above the foliage.
<i>Penstemon hybrid</i>	Onyx and Pearls'	Penstemon, Beardtongu	42"	38"	Full Sun	Medium	May-Jun	NA	P,B		US native. Named after two polar opposite colors of gemstones, onyx is in reference to its dark foliage and pearls refers to its soft lavender flowers with white interiors. It takes the heat and humidity but is also cold hardy.

<i>Phlox divaricata</i>	Blue Moon'	Woodland Phlox	18"	12"	Part Sun-Full Sun	Medium	Apr-Jun	NA (AL)	P,B		AL native. Selected for outstanding flower color and full petals, it bears many fragrant, 5-petaled flowers with the arrival of spring. A long-lived, carefree native groundcover.
<i>Phlox paniculata</i>	Jeana'	Garden Phlox			Full Sun-Part Sun	Medium		NA (AL)			AL native. Has great powdery mildew resistance. Producing large masses of small lavender-pink flowers. 2024 Perennial plant of the year. Discovered along the Harpeth River, in Tennessee.
<i>Phlox subulata</i>	Red Wing'	Creeping Phlox	6"	18"	Full Sun	Low-Medium	Jun	NA (AL)	P,B		US native. This popular little perennial is best utilized in rocky areas, on slopes, and in flower borders. This popular little perennial is best utilized in rocky areas, on slopes, and in flower borders.
<i>Physostegia virginiana</i>	New Era'	Obedient Plant	36"	30"	Full Sun	Medium-High	June-Sep	NA(AL)	D,B,P		AL native. These flowers tower with abundant, pastel pink blooms: the reason behind the common name is that they'll stay in whatever position you point them (at least temporarily).
<i>Polygonatum biflorum</i>		Solomon's Seal	4'	15"	Full SunH/Part SunH	Medium	May-June	NA(AL)	B,P		AL native. Long arching stems are chalky green, short lived pairs of tubular white flowers are followed by purple fruit in fall. Great gold and yellow fall color.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Polystichum polyblepharum</i>		Tassel Fern	3'	3'	Part Sun	Medium	N/A	Asia			This evergreen fern has shiny, dark green foliage that makes unique "tassels" as the new leaves unfurl.
<i>Pulmonaria hybrid</i>	Pink-a-Blue'	Lungwort	18"	24"	Shade-Part Sun	Medium	Mar-Jul	Eur, Asia	D,R,P,B		Pink flower buds open to medium blue flowers in early spring. Buds and blooms appear at the same time for an alluring two tone effect. Wonderful for adding color to the shade garden.
<i>Pulmonaria x hybrid</i>	Raspberry Splash'	Lungwort	12"	24"	Full SunH/Part SunH	Medium	April	NN	D		Prolific blooming plants begin in spring with raspberry pink flowers over thinner, spotted foliage mounding plants.
<i>Ratibida pinnata</i>		Yellow Coneflower	3-5'	2'	Full Sun	Medium	July-Sept	NA	P,B		Prefers clay or sandy soils and is drought tolerant.
<i>Salvia nemorosa</i>	Bumbleblue'	Perennial Salvia	14"	16"	Full Sun	Medium	Jun-Jul	Eur, Asia	D,R,P		A prolific bloomer, producing violet blue flowers on a petite habit of healthy, deep green foliage. Perfect for the front of the border or grown in a quart pot.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Salvia nemorosa</i>	Crystal Blue'	Perennial Salvia	20"	26"	Full Sun	Medium	Apr-Aug	Eur, Asia	D,R,P,B		This colorful perennial produces cool sky blue flower spikes atop the neatly mounded, aromatic foliage. Lovely when planted in drifts. Attracts butterflies and hummingbirds.
<i>Sanguisorba menziesii</i>		Menzies' Burnet	33"	22"	Full Sun/Part Sun	Medium-High	June-Sep	NA	D,R,B		This early blooming Burnet has chocolatey red flowers that look like caterpillars in late spring
<i>Sarracenia x moorei</i>	Conversation Piece'	Pitcher Plant	25"	14"	Full Sun	High	Mar-April	NA(AL)	D		AL native. The tall, lime green pitchers have red hoods with distinctive veining. Flowers appear in summer as tall, nodding blooms a similar red color to the pitchers.
<i>Solidago rugosa</i>	Little Lemon'	Goldenrod	10-14"	18"	Full Sun	Medium	July-Oct	NA	P, D, R		A smaller type of Goldenrod. Blooms in midsummer with bright yellow flower spikes.
<i>Solidago rugosa</i>	Fireworks'	Rough Goldenrod	30-42"	30-42"	Full Sun	Medium	July-Oct	NA	P, D, R, B		Presents long plumes of bright yellow flowers during the late summer through early fall.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Stachys byzantina</i>	Silver Carpet'	Lamb's Ear	6"	30"	Sun	Low	n/a	Asia			Silky hairs cover the leaves, giving them a very silvery appearance overall. Great for hot, dry locations. Will produce spikes of purple flowers in early summer.
<i>Stokesia laevis</i>		Stoke's Aster	18"		Full Sun, Part Sun	Medium	Spring, Summer	US (AL)	P,D,R,B		AL native. Heat tolerant and drought resistant perennial. It will bloom throughout the summer and into the fall if deadheaded.
<i>Symphotrichum novae-angliae</i>	Grape Crush'	New England Aster	14"	30"	Full Sun	Medium	Sep-Oct	NA(AL)	P,B		AL native. Produces a large, very round mound with densely packed flowers. Rich, dark purple flowers are produced above dark green foliage.
<i>Symphotrichum oblongifolium</i>	October Skies'	Aromatic Aster	20"	20"	Full Sun	Medium	Aug-Oct	NA(AL)	B		AL native. A bushy, stiff, compact, low-growing plant with hairy stems. Perfect for adding fall color for the landscape. Great for attracting pollinators.
<i>Thelypteris kunthii</i>		Southern Shield Fern	3'	12"	Part Sun	Medium	n/a	NA(AL)			AL native. Spreads quickly to form colonies instead of clumps. Fairly drought tolerant.

Scientific Name	Cultivar Name	Common Name	Height	Width	Light	Water	Bloom Range	Native Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Photo	Description
<i>Thymus praecox</i>	Bressingham'	Creeping Thyme	3"	13"	Full Sun	Medium-Low	June	NN	D		Grey green, ground hugging plants with good vigor are covered by pink flowers. Great for stepping stones or rock gardens.
<i>Tiarella hybrid</i>	Cutting Edge'	Foamflower	10"	18"	Shade-Part Sun	Medium	Mar-Jul	NA	P		US native. The perfect perennial for spring interest in the shade garden. Finely dissected green leaves have dramatic dark burgundy centers and form a rounded, clumping habit. Creamy bottlebrush-like flowers.
<i>Veronica hybrid</i>	White Wands'	Spiked Speedwell	16"	20"	Part Sun-Full Sun	Medium	Jun-Aug	NN	P, D		Pure white flower wands are borne prolifically atop the short, dense clump of dark green foliage. Try planting in combination containers or near the front of the border.

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Native Range	Photo	Description	Type
<i>Acer rubrum</i>	Florida Flame®	Red Maple		50' to 60'	25' to 35'	Full Sun-Part Sun	Medium	NA			NA(AL)		AL native. The foliage on this maple begins as a warm red, before progressing to a bright green and ending as a bright "flame" red just before dropping.	Tree
<i>Aesculus parviflora</i>		Bottlebrush Buckeye		8'	16'	Part Sun-Full Sun,	Medium	Midsummer	P,D,B		US Native; AL Native		AL native. Large white blooms in the summer, and its dark green, compound leaves turn yellow in the fall.	Shrub
<i>Aesculus pavia</i>		Red Buckeye		10-20'	10-20'	Part Sun	Medium	Spring	P,D,B		US Native; AL Native		AL native. Large red flowers in the spring and is an excellent hummingbird plant, does well in shade	Shrub
<i>Asimina triloba</i>		Pawpaw		15-30'	15-30'	Full Sun, Part Sun	Medium-High	Spring	P,D,B		US Native; AL Native		AL native. Burgundy flowers in the spring, give way to fruit in the fall. Fruit tastes like banana custard and attracts many types of wildlife.	Fruit
<i>Callicarpa americana</i>		American Beautyberry		3-8'	3-6'	Full Sun, Part Sun	M-H	Sumer	P,D,R		SE North America		AL native. Woody perennial shrub that produces unique, bright purple fruits in the fall.	Shrub
<i>Calycanthus chinensis</i>		Chinese Sweetshrub		5-10'	5-10'	Full Sun, Part Sun	M	April- June	P,D,R		NN		A deciduous shrub known for its fragrant leaves. Produces white, camellia like blooms during the spring.	Shrub
<i>Calycanthus floridus</i>		Florida Sweetshrub		6-12'	6-12'	Full Sun, Part Sun	M	April-July	P,D,R		SE North America		AL native. Produces red flowers with a strong fragrance that is more pronounced on a hot day.	Shrub

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Native Range	Photo	Description	Type
<i>Camellia hybrid</i>	Taylor's Perfection'	Camellia		6'	6'	Part Sun-Full Sun	Medium	Jan-Mar	B		Asia		This evergreen has dark green foliage that puts out a large number of large, light pink blooms during the winter months. Excellent on its own or as part of a larger, flowering hedge.	Shrub
<i>Camellia japonica</i>	High Fragrance'	Camellia		5-8'	5-8'	Part Sun	Medium	Jan-Mar	P,B		Asia		Unique due to its soft, fragrant flowers. Blooming in the winter, its light pink flowers are an excellent contrast to its dark green foliage.	Shrub
<i>Camellia japonica</i>	April Remembered'	Camellia		8-10'	6-8'	Part Sun	Medium	Feb-April	P,B		Asia		An exceptionally hardy cultivar. This Camellia also has a fairly long bloom period, putting out blooms sometimes from early winter to late spring.	Shrub
<i>Camellia japonica</i>	Debutante'	Camellia		7'	7'	Part Sun	Medium	Jan-Mar	P,B		NN		Light pink, peony-style blooms are a delightful contrast to the glossy, dark green leaves. one of the earliest to bloom. Discovered at Magnolia Plantation in Charleston, SC	
<i>Camellia japonica</i>	Brushfield Yellow'	Camellia		8'	7'	Part Sun	Medium	Jan-Mar	P,B		Asia		Anemone-form flowers with a mound of creamy, antique yellow center petaloids surrounded by creamy-white petals. One of the few yellow camellias.	
<i>Camellia japonica</i>	Tricolor'	Camellia		10'	6'	Part Sun	Medium	Jan-Mar	P,B		Asia		Features 3-4in, semi-double blooms that vary in petal color from white to pale pink with stripes of bright red.	Shrub
<i>Camellia sasanqua</i>	White Shi-Shi'	Camellia	October Magic®	3'	4'	Part Sun-Full Sun	Medium	Nov-Dec	P,B		Asia		Known for their unique, double blooms. This Camellia has bright white blooms and a compact size. Great for informal hedges.	Shrub

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Native Range	Photo	Description	Type
<i>Camellia sasanqua</i>	Ruby'	Camellia	October Magic®	4'	5'	Part Sun-Full Sun	Medium	Oct-Nov	P,B		Asia		Compact and heavily blooming, this camellia will provide bright red, double blooms during the early and late fall.	Shrub
<i>Catalpa bignonioides</i>		Southern Catalpa		30-40'	25-60'	Full Sun, Part Sun	M	May, June	P,D,R		NA		US native. This tree produces clusters of white flowers in the early summer that turn into dangling clusters of "cigar" shaped seed pods.	Tree
<i>Cercis canadensis</i>		Redbud	The Rising Sun™	12'	10'	Part Sun-Full Sun	Medium	Mar-Apr			NA(AL)		AL native. The leaves are the most striking feature of this Redbud. The leaves create a gradient from dark green, to pale green, to yellow, to bronze orange on the heart shaped leaves.	Tree
<i>Cercis hybrid</i>	Merlot'	Redbud		15'	15'	Part Sun-Full Sun	Medium	Mar-Apr			NA		US native. Not only do you get the signature pink redbud blooms, but this variety also has heart shaped, dark purple leaves.	Tree
<i>Clematis hybrid</i>	Jackmanii'	Clematis		10'	24"	Full Sun	Medium	Jul-Sept	P,B		NN		A classic clematis with a long bloom time of 5-7inch deep purple flowers. Perfect for attracting pollinators and humming birds.	Vine
<i>Clethra alnifolia</i>	Ruby Spice	Sweet Pepperbush		8'	4'	Part Sun-Full Sun	Medium	Jul-Aug	P,B		NA(AL)		AL native. Deep reddish pink flower spikes provide a contrast to the dark green foliage. Fragrant flowers attract pollinators which give way to seed capsules that attract birds.	Shrub
<i>Clethra alnifolia</i>	Hummingbird'	Clethra		2-3'	3-5'	Full Sun, Part Sun	M	July-August	P,D,R		NA		US native. Produces bottlebrush spikes of very fragrant, white flowers that can last up to 6 weeks. Produces great blooms even in shaded areas.	Shrub

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Native Range	Photo	Description	Type
<i>Clethra alnifolia</i>	Ruby Spice'	Clethra		4-6'	3-5'	Full Sun, Part Sun	M	July-August	P,D,R		NA		US native. Produces bottlebrush spikes of very fragrant, red to pink flowers that can last up to 6 weeks.	Shrub
<i>Cornus hybrid</i>	Rutban'	Dogwood	AURORA®	20'	20'	Part Sun-Full Sun	Medium	Mar-May	P		Eur		Overlapping, bright white flowers cover this dogwood. Perfect for brightening a shady space.	Tree
<i>Cornus kousa x nuttallii</i>	Rosy Teacups'	Dogwood		20'	25'	Part Sun-Full Sun	Medium	Mar-May	P,B		EAsia		Bred to be more sun and drought tolerant with an abundance of pink flowers. The flowers are long lasting and appear later than native dogwoods.	Tree
<i>Cotinus coggygia</i>		Smokebush	Winecraft Gold®	6'	6'	Full Sun	Medium	May-Aug			Eur, Asia		Round leaves that emerge a light gold that mature into a bright chartreuse. Flowers are "smokey" plumes that cover the plant.	Shrub
<i>Cupressus arizonica</i>	Carolina Sapphire	Cypress		20-30'	15-20'	Full Sun	M	NA	D,R		NA		US native. This cypress boasts silvery blue foliage and a pleasant aroma.	Shrub
<i>Edgeworthia chrysantha</i>		Paperbush		5'	5'	Part Sun	Medium	Feb-April	P		Asia		A shrub native to China and the Himalayas that provides superb fall and winter interest and a gardenia-like fragrance. Often one of the first things to bloom in spring.	
<i>Ficus carica</i>	Chicago Hardy'	Fig		15'	12'	Full Sun	Medium	Fruits Jun-Oct	B		Eur, Asia		Considered the hardiest edible fig. Stems are hardy to 10F and will die back but resprout during spring to make fruits during the summer and fall.	Fruit tree

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Native Range	Photo	Description	Type
<i>Fothergilla gardenii</i>		Dwarf Fothergilla		2-6'	2-6'	Full Sun, Part Sun	M-H	April, May	P,D,R	NA		US native. Produces spikes of fluffy, white flowers. Foliage gives excellent reds and yellows during the Fall.	Shrub
<i>Fothergilla major</i>	Mount Airy'	Dwarf Fothergilla		5'	5'	Part Sun-Full Sun	Medium	Mar-May	P,B	NA(AL)		AL native. A deciduous shrub that blooms white spikes of honey scented flowers. The foliage has a vibrant range of fall color.	Shrub
<i>Gelsemium sempervirens</i>		Yellow Jessamine		10-20'	3-6'	Full Sun, Part Sun	M	February-May	P,D,R	North and Central America		US native. Vining plant with bright yellow, sweet smelling flowers. Can be a bushy ground cover, or be trained up a trellis.	Vine
<i>Hamamelis virginiana</i>		Common Witch hazel		10-20'	10-20'	Full Sun	M	October, Novem	P,D,R	NA		US native. Known for its crinkly, bright yellow flowers during the fall.	Tree
<i>Hibiscus syriacus</i>		Rose of Sharon		8-12'	6-10'	Full Sun	M	June-Oct	P,D,R	NN		Produces large, 5 petal flowers in abundance. Tolerates neglect well.	Shrub
<i>Hydrangea quercifolia</i>	Pee Wee'	Oakleaf Hydrangea		3-4'	3'	Full Sun, Part Sun	M-H	June, July	P,R	SE US		Boasts a more compact size than other Oak Leaf Hydrangeas. Has very long lasting, white blooms that fade to a bronze-brown during winter.	Shrub
<i>Hydrangea macrophylla</i>		Lacecap Hydrangea		3-6'	3-6'	Part Sun	Medium-High	Summer, Fall	P,B	NN		Fast growing, the Lacecap Hydrangea will get to mature size within 3 years of planting, averaging 2 feet a year. This shrub will be covered in small, frilly florets and flower buds every summer and attracts pollinators to your yard.	Shrub

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Native Range	Photo	Description	Type
<i>Hydrangea paniculata</i>		Panicle Hydrangea	BOBO®	3'	4'	Full Sun	Medium	Jul-Sept	P,B		Asia		This dwarf hydrangea is covered in large white blooms. The blooms continue to lengthen as they grow, and slowly turn pink as they age.	Shrub
<i>Hydrangea quercifolia</i>	Pee Wee'	Oakleaf Hydrangea		10'	8'	Part Sun-Full Sun	Medium	Jul-Sept	P,B		NA(AL)		AL native. A smaller cultivar that is perfect for smaller landscapes. They still have excellent fall color and beautiful flaky bark.	Shrub
<i>Hydrangea quercifolia</i>	Ruby Slippers'	Oakleaf Hydrangea		4'	5'	Part Sun-Full Sun	Medium	Jul-Sept	P,B		NA(AL)		AL native. A compact size and ruby red blooms are the notable features of this oak leaf hydrangea. The foliage turns a mahogany red during the autumn.	Shrub
<i>Hydrangea quercifolia</i>	Snowflake'	Oakleaf Hydrangea		5-8'	5-10'	Full Sun, Part Sun	M	June, July	P,B		SE US		Offers big, double blooms that start white and fade into a rosy pink during the summer. Foliage turns red during the fall.	Shrub
<i>Hydrangea quercifolia</i>	Ruby Slippers'	Oakleaf Hydrangea		3-4'	3-5'	Full Sun, Part Sun	M	May, June	P,B		SE US		AL native. A compact size and ruby red blooms are the notable features of this oak leaf hydrangea. The foliage turns a mahogany red during the autumn.	Shrub
<i>Hypericum frondosum</i>	Sunburst'	St. John's Wort		3'	4'	Part Sun-Full Sun	Medium	Jun-Jul	P		NA(AL)		AL native. A tight, dense, upright, mounded shrub with large, golden-yellow flowers.	Shrub
<i>Ilex verticillata</i>	Winter Gold'	Winterberry		5-8'	5-8'	Full Sun	M-H	Sept-Feb	P,D,B		Eastern NA		AL native. This deciduous female holly produces ornamental pink-orange berries that persist well into winter, changing to golden yellow and providing winter interest.	Shrub

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Native Range	Photo	Description	Type
<i>Ilex verticillata</i>	Winter Red'	Winterberry		6-8'	6-8'	Full Sun, Part Sun	M	Aug-Feb	P,D,R		A		AL native. Notable for being covered in its bright red berries during the winter months. Provides excellent interest during the winter.	Shrub
<i>Illicium floridanum</i>		Florida Anise		10'	8'	Part Sun-Full Sun	Medium-High	Jul-Sept	P		SE NA		AL native. Florida anise is native to the state and grows along the coastal plain, from Florida to Louisiana. It works well as a hedge or barrier plant. Does great in wet areas.	
<i>Itea virginica</i>	Henry's Garnet'	Virginia Sweetspire		4'	6'	Full Sun-Part Sun	Medium-High	Apr-Jun	P		NA(AL)		AL native. Provides drooping spikes of fragrant white flowers during the late spring, but is known for its vibrant red foliage in the fall and early winter. Does well in wet areas.	Shrub
<i>Itea virginica</i>	Henry's Garnet'	Virginia Sweetspire		3-4'	4-6'	Full Sun, Part Sun	M-H	May, June	P,D,R		NA (AL)		AL native. Provides drooping spikes of fragrant white flowers during the late spring, but is known for its vibrant red foliage in the fall and early winter.	Shrub
<i>Lindera benzoin</i>		Northern Spicebush		6-12'	6-12'	Full Sun, Part Sun, Full Shade	L-M	April, May	P, D, R		Eastern North America		US native. Gives off fuzzy yellow flowers that turn into bright red berries. Both the fruit and foliage have a spicy aroma.	Shrub
<i>Magnolia grandiflora</i>	Kay Parris'	Magnolia		20'	10'	Full Sun	Medium	May-Sept	P,B		NA (AL)		AL native. Regarded as one of the best evergreen magnolias. It has deep green foliage with light brown, velvety undersides and grows large, fragrant flowers.	Tree
<i>Magnolia hybrid</i>	Ann'	Saucer Magnolia		10'	10'	Full Sun	Medium	Mar-Apr	P,B		NN		Puts off an impressive show of pink to red, tulip shaped flowers in early spring, with some blossoms returning in summer.	Tree

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Native Range	Photo	Description	Type
<i>Magnolia virginiana</i>		Sweetbay Magnolia		35-60'	15-25'	Full Sun, Part Sun	M	May, June	P,D,R	Eastern North America		US native. More slender than other Magnolias and can tolerate wet, boggy soils better than others. Produces 3 inch wide, white flowers.	Tree
<i>Malus domestica</i>	Honeycrisp'	Apple		15'	15'	Full Sun	Medium	Sept-Oct	P	Asia		A very cold hardy apple variety. For best fruiting, it requires another variety with a similar bloom time such as Gala or Golden Delicious.	Fruit tree
<i>Malus domestica</i>	Gala'	Apple		15'	15'	Full Sun	Medium	Sept-Oct	P	Asia		A heavily fruiting variety of apple. Fruits best with another variety of apple with a similar bloom time, such as Honeycrisp or Golden Delicious.	Fruit tree
<i>Malus domestica</i>	Yellow Delicious'	Apple		15'	15'	Full Sun	Medium	Sept-Oct	P	Asia		Well known and heavily fruiting, this apple is sweet and crisp. Self-pollinates well, but having another variety will help improve its yield.	Fruit tree
<i>Malus domestica</i>	Arkansas Black'	Apple		16'	10'	Full Sun	Medium	Sept-Oct	P	NN		Ripening late in the season, Arkansas Black is an reliable producer and is resistant to cedar-apple rust and fireblight.	
<i>Osmanthus fragrans</i> var. <i>aurantiacus</i>		Sweet Osmanthus		15'	8'	Part Sun-Full Sun	Medium	Sept-Nov	P	Asia		Grows dense clusters of bright orange flowers that are known for their fragrance. Provides evergreen foliage as well. Great for planting near seating areas to enjoy the fragrance.	Shrub
<i>Osmanthus heterophyllus</i>		Gulf tide Osmanthus		8-15'	5-7'	Full Sun, Part Sun	L-M	Sept-Oct	D,R	NN		Sometimes called "False Holly" this evergreen shrub also produces extremely fragrant flowers in the Fall.	Shrub

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Native Range	Photo	Description	Type
<i>Prunus persica</i>	Elberta'	Peach		14'	12'	Full Sun	Medium	June-July	P	Asia		Covered in fragrant, pink blooms in the spring. Fruits large, yellow, free stone peaches in mid to late summer. Foliage is deep yellow in the fall.	Fruit tree
<i>Rhododendron</i>	Augie's Red'	Native Azalea		10'	10'	Part Sun-Full Sun	Medium	Mar-May	P,B	NA(AL)		AL native. Produces large clusters of bright red buds that open into brilliant red flowers with a strong aroma. Heat and humidity tolerant, ideal for partially shaded areas and woodland borders.	Shrub
<i>Rhododendron alabamense</i>	Pete McNees'	Alabama Azalea		8'	6'	Part Sun	Medium	Mar-May	P,B	NA(AL)		AL native. Clusters of honeysuckle-like flowers that have a bright, lemony scent. More drought tolerant than other azaleas.	Shrub
<i>Rhododendron alabamense x molle</i>		Azalea				Part Sun	M-H			placeholder image NA (AL)		Wonderful native azalea that provide early spring color, with peach colored blooms.	Shrub
<i>Rhododendron arborescens</i>		Sweet Azalea		14'	14'	Part Sun	Medium	May-Jul	P,B	NA(AL)		AL native. Sometimes referred to as "Tree Azalea" for its ability to grow so large. Blooms have a notable red to purple stamen that contrasts the white petals. Foliage turns red to purple in the fall.	Shrub
<i>Rhododendron arborescens</i>		Sweet Azalea		8-12'	8-12'	Part Sun	M,H	May-July	P,B	NA (AL)		AL native. Sometimes referred to as "Tree Azalea" for its ability to grow so large. Blooms have a notable red to purple stamen that contrasts the white petals. Foliage turns red to purple in the fall.	Shrub
<i>Rhododendron austrinum</i>	Yellow Selection'	Florida Azalea		6'	4'	Part Sun	Medium	Mar-May	P	NA(AL)		AL native. Forms clusters of fiery yellow flowers that have a honeysuckle-like fragrance. The blooms appear on naked stems, or as the leaves are emerging.	Shrub

<i>Rhododendron austrinum</i>		Florida Azalea		6-10'	3-6'	Part Sun	M-H	Feb-April	P,R,B	NA (AL)		AL native. Forms clusters of fiery yellow flowers that have a honeysuckle-like fragrance. The blooms appear on naked stems, or as the leaves are emerging.	Shrub
<i>Rhododendron calendulaceum</i>		Flame Azalea		8'	8'	Part Sun	Medium	Apr-Jul	P,B	NA(AL)		AL native. Puts out fiery colored blooms that are larger than other native azaleas. Blooms can last for multiple weeks.	Shrub
<i>Rhododendron canescens</i>	Phlox Pink'	Mountain Azalea		12'	12'	Part Sun	Medium	Mar-May	P,B	NA(AL)		AL native. This azalea blooms bright to light pink flowers with a spicy and floral aroma, great for planting near the patio or doors to better enjoy the scent. Very heat and humidity tolerant.	Shrub
<i>Rhododendron hybrid</i>	Brick Red'	Native Azalea		5'	5'	Part Sun	Medium	Mar-May	P,B	NA(AL)		AL native. Vivid red single blooms. Foliage turns red colors during the fall.	Shrub
<i>Rhododendron hybrid</i>	High Tide'	Native Azalea		8'	5'	Part Sun	Medium	Mar-May	P,B	NA(AL)		AL native. Produces clusters of highly fragrant flowers that produce a spicy and sweet aroma. Flowers can have yellow or pink highlights.	Shrub
<i>Rhododendron hybrid</i>	Tallulah Sunrise'	Native Azalea		8'	6'	Part Sun	Medium	Mar-May	P,B	NA(AL)		AL native. Forms clusters of red buds that open into bright peachy blooms with golden highlights that have a sweet fragrance. Foliage turns orange-bronze in fall.	Shrub
<i>Rhododendron hybrid</i>	Wedding Cake'	Native Azalea		8'	6'	Part Sun	Medium	Mar-May	P,B	NA(AL)		AL native. Forms clusters of bright and light pink with yellow accents.	Shrub

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Native Range	Photo	Description	Type
<i>Rhododendron hybrid</i>	George Taber'	Indica Azalea		10'	12'	Full Sun-Part Sun	Medium	Mar	P,B		NN		Each bloom is nearly white with a pale orchid-lavender overcast. The throat showcases a deeper magenta tone, with a rosy-pink splotch. Does great in full sun to light shade.	
<i>Rhododendron hybrid</i>	GG Gerbing'	Indica Azalea		5'	5'	Full Sun-Part Sun	Medium	Mar	P,B		NN		An evergreen shrub featuring large, bright white spring flowers. Its blooms are so plentiful that it appears as if the whole entire plant is pure white.	
<i>Rhododendron hybrid</i>	Midnight Fire'	Azalea		4'	4'	Part Sun	Medium	April	P,B		NN		Fiery, clear red flowers. The 2" wide blossoms seemingly cover up the plant in spring and are held against a foil of deep green, slightly bronze tinged foliage.	
<i>Rhododendron hybrid</i>		Native Azalea	Boike	6'	4'	Part Sun	M-H	March-May	NA (AL)		P,B		AL native. Puts out fiery colored blooms that are larger than other native azaleas. Blooms can last for multiple weeks.	Shrub
<i>Rhododendron hybrid</i>		Native Azalea	Confederate	4-15'	4-15'	Part Sun	M-H	March-May	placeholder image' NA (AL)		P,B		AL native. Puts out fiery colored blooms in spring. Blooms can last for multiple weeks.	Shrub
<i>Rhododendron oblongifolium x alabamense</i>		Texas x Alabama Hybrid Azalea				Part Sun	M-H				NA (AL)		Wonderful native azalea that provide early spring color, with white blooms.	Shrub
<i>Rhododendron oblongifolium x serrulatum</i>		Texas Azalea				Part Sun	M-H				NA (AL)		Wonderful native azalea that provide early spring color, with white blooms.	Shrub

<i>Rhododendron x</i>	Sunny Side Up'	Azalea hybrid	Aromi	8-10'	6-8'	Part Sun	M-H	March, April	NA (AL)	P,B		Clusters of bright and fragrant yellow flowers cover this azalea.	Shrub
<i>Rubus fruticosus</i>	Arapaho'	Thornless Blackberry		4-6'	3-4'	Full Sun	M	June	NA	P,D,B		US native. A thornless, self-fruiting varietal of blackberry. Early ripening and very heat tolerant.	Fruit
<i>Rubus fruticosus</i>	Traveler'	Thornless Blackberry	Prime Ark	4-6'	2-3'	Full Sun	M	July-Sept	NA	P,D,B		US native. A thornless, self-fruiting varietal of blackberry. Bears fruit that begins to ripen in June and continues to fruit until first frost.	Fruit
<i>Rubus fruticosus</i>	Osage'	Thornless Blackberry		4-10'	3-4'	Full Sun	M	June, July	NA	P, D,B		US native. A thornless, self-fruiting varietal of blackberry. Midseason fruit that is drought tolerant and forgiving of soil conditions.	Fruit
<i>Rubus fruticosus</i>	Ouachita'	Thornless Blackberry		4-5'	3-4'	Full Sun	M	June-August	NA	P,D,B		US native. A thornless, self-fruiting varietal of blackberry. Produces a summer crop starting in June and lasting for about 5 weeks.	Fruit
<i>Rubus fruticosus</i>	Navaho'	Thornless Blackberry		4-6'	3-5'	Full Sun	M	July	NA	P,D,R,B		US native. A thornless, self-fruiting varietal of blackberry. Produces a single crop in mid to late July.	Fruit
<i>Rubus fruticosus</i>	Freedom'	Thornless Blackberry	Prime Ark	4-5'	3-4'	Full Sun	M	June-Sept	NA	P,D,B		US native. A thornless, self-fruiting varietal of blackberry. This variety is able to tolerate clay soil, and produces a single crop of berries in mid to late summer.	Fruit

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)		Native Range	Photo	Description	Type
<i>Rubus hybrid</i>	Prime-Ark 'Freedom'	Thornless Blackberry		5'	4'	Full Sun	Medium	Apr-May	P		NA		US native. A thornless, self-fruiting varietal of blackberry. This variety is able to tolerate clay soil, and produces a single crop of berries in mid to late summer.	Fruit tree
<i>Rubus hybrid</i>	Prime-Ark 'Traveler'	Thornless Blackberry		5'	4'	Full Sun	Medium	Apr-May	P		NA		US native. A thornless, self-fruiting varietal of blackberry. Bears fruit that begins to ripen in June and continues to fruit until first frost.	Fruit tree
<i>Rudbeckia fulgida</i>	Goldsturm'	Black-Eyed Susan		24"	24"	Full Sun	Medium	May-Sept	P,B		NA(AL)		AL native. A heavily and long blooming variety of the beloved Black Eyed Susan. Continues to bloom all summer long.	Herbaceous
<i>Thuja standishii</i> x <i>plicata</i>	Green Giant'	Arborvitae		50-60'	12-20'	Full Sun	L-M	NA	P, D, R, B		NA		One of the fastest growing and easiest to care for conifers. Can grow 3-5ft every year and is resistant to heat, humidity and frost.	Shrub
<i>Vaccinium ashei</i>	Alapaha'	Rabbiteye Blueberry		7'	6'	Full Sun	Medium	Apr-May	P,B		NA(AL)		AL native. Later blooming to miss the final frost, but ripens relatively quickly. For higher yields, it is best to have another rabbiteye varietal, such as Powderblue, to help cross pollinate.	Fruit tree
<i>Vaccinium ashei</i>	Bluebell'	Rabbiteye Blueberry		9'	8'	Full Sun	Medium	Mar-May	P,B		NA(AL)		AL native. Produces large, light blue berries during midsummer. Prefers at least one other varietal to crosspollinate with to increase berry yield.	Fruit tree
<i>Vaccinium ashei</i>	Climax'	Rabbiteye Blueberry		10'	9'	Full Sun	Medium	Mar-May	P,B		NA(AL)		AL native. Berries are ready earlier than other varietals. Rabbiteye blueberries prefer at least one other varietal to crosspollinate with to increase berry yield.	Fruit tree

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Native Range	Photo	Description	Type
<i>Vaccinium ashei</i>	Tifblue'	Rabbiteye Blueberry		12'	8'	Full Sun	Medium	Mar-May	P,B	NA(AL)		Produces a large amount of big fruits. Among the tallest growing rabbiteye blueberries. Prefers at least one other varietal to crosspollinate with to increase berry yield.	Fruit tree
<i>Vaccinium ashei</i>	Brightwell'	Rabbiteye Blueberry		6-10'	6-10'	Full Sun, Part Sun	M	July, August	P, D, B	NA (AL)		AL native. Bears earlier season fruits. Produces berries for about a month in late June. Prefers at least one other varietal to crosspollinate with to increase berry yield.	Shrub
<i>Vaccinium ashei</i>	Powder Blue'	Rabbiteye Blueberry		6-10'	6-10'	Full Sun	M	June, July	P, D, B	NA (AL)		AL native. Bears mid to late season fruits. A very heat tolerant variety. Prefers at least one other varietal to crosspollinate with to increase berry yield.	Shrub
<i>Vaccinium ashei</i>	Premier'	Rabbiteye Blueberry		10'	10'	Full Sun	M	May, June	P, D, B	NA (AL)		AL native. Bears earlier season fruits. Tolerates less acid soil better than other varietals. Prefers at least one other varietal to crosspollinate with to increase berry yield.	Shrub
<i>Viburnum macrocephalum</i>		Chinese Snowball Shrub		25'	20'	Full Sun	Medium	Apr-May	P	Asia		Large flowers that begin a pale green before maturing into a bright white cover this deciduous shrub. Occasionally produces a fall flush of flowers.	Shrub
<i>Viburnum plicatum</i>	Mary Milton'	Japanese Viburnum		10'	10'	Full Sun	Medium	Apr-May	P	Asia		Produces large blooms that can be tinged with pinks and bluish. Foliage turns a purple-red in the fall. Blooms later than the Chinese Snowball bush.	Shrub
<i>Vitex agnus-castus</i>	Blue Diddley®	Chaste Tree		6'	6'	Full Sun	Medium	May-Aug	P	Eur, Asia		About half the size of the average Vitex, it covers itself in lavender blue flowers during the summer. Attracts many pollinators and the seed pods provide winter interest.	Shrub

Scientific Name	Cultivar Name	Common Name	Trade Name/Series	Height	Width	Light	Water	Bloom Range	Notes (D: Deer Resistant, R: Rabbit Resistant, P: Attract Pollinators, B: Attracts Birds)	Native Range	Photo	Description	Type
<i>Vitex agnus-castus</i>	Shoal Creek'	Chaste Tree		4-15'	4-12'	Full Sun	L-M	June-Oct	P, D, R, B	NN		This vitex blooms in dense clusters of fragrant, violet flowers. Thrives in heat.	Shrub
<i>Vitis rotundifolia</i>	Cowart'	Muscadine		6-10'	8-12'	Full Sun	M-H	Aug-Sept	P, D, R, B	SE US		Produces fruit in the late summer to early fall. A high yield and disease resistant variety.	Fruit
<i>Vitis rotundifolia</i>	Nesbitt'	Muscadine		8-12'	6-20'	Full Sun	M	Sept, Oct	P, D, R, B	SE US		Produces large, black fruits in late summer through fall.	Fruit
<i>Vitis rotundifolia</i>	Triumph'	Muscadine		12'	5-8'	Full Sun	M-H	August, Sept	P, D, R, B	SE US		Produces large, golden fruits in late summer. Has good frost resistance.	Fruit
<i>Vitis rotundifolia</i> x		Southern Home Muscadine		8-12'	6-10'	Full Sun	M-H	Aug-Nov	P, D, R, B	NA		Cross between a muscadine and traditional bunch grape. Known for its attractive foliage and disease resistance.	Fruit
<i>Weigela florida</i>	Wings of Fire'	Weigela		8'	0'	Full Sun	Medium	April-Jun	P	NN		Tolerant of clay soils. Needs full sun for best flowering and foliage color, but will tolerate some light shade or sun dappled shade. An old fashioned plant becoming popular again.
